“ *Donnetta was my trainer in the Blade BLDG her last years. She wasn't happy about training someone new but she did. as time went on she started picking on me and I picked on her. We made a great team and as time went on it was her knowledge that I needed more than her doing any work. Often telling stories from her past and all the different people she worked with at Tinker. I'm not sure she ever het anyone she wouldn't talk with and was nice to. She was a great friend, mentor, and lady. We will miss her so very much.*

“ I want to let you know you and your family are in our prayers, I imagine you may be overwhelmed because you've been dealing with so much lately, and maybe you're wondering how things are ever going to work out. Just remember that although life brings many changes, God's love for us remains constant. He's always there, guiding us through decisions and helping us to do the hard things; always restoring in us a sense of hope and peace, no matter what we're facing. The most beautiful thing about God is the more we need Him, the closer He is. That's how I know that God's love will sustain you in the days and months ahead. Donetta was a beautiful person and will truly be missed. We meet in elementary school (third grade) and remained friends.

“ I met Donnetta after she married my brother Ralph many years ago. I soon found out she was never at a loss for words. I could always count on her to help me remember the names of family members and where they lived. She always had an encouraging word when I became a caregiver for my mother. She will be greatly missed. It was apparent how much my brother loved her. I will continue to pray for Ralph and the rest of the family.

“ Donnetta and I were friends since High School. I was a brides maid in her wedding to her husband Ralph. She was a sweet person and I will miss her deeply at our reunion. Condolences to the family.

“ Was so sorry to hear of Donnetta’s passing. She always had a smile and hug for me anytime I saw her.

She was like my second mom at Tinker for 37 years. Even before I started work there when I used to help out with sales in her building and visiting my mom Lois there Donnetta always kept her eye on me.

She always asked after my family and wanted me to take her to go see my mom but we just never managed.

May God wrap his arms around the family and provide peace and comfort.

“ Let me first say to the family how sad I am for your loss and I send my condolence. Donnetta is a special person to me and I had the honor of knowing and working with her for close to 20 yrs at Tinker AFB. I was her work leader in 2002 and also her forklift trainer through out the years. I'd like to share this story. So every three years each FL operator must do a refresher course to be certified to drive a forklift, so one such year much later in her career, it was her turn to get qualified. She wanted me to just sign the paperwork that she was qualified but I told her, "No. you gotta get up in there and show me what you got." She said (a few choice words) and then, "You know I can't get up there, why you gonna make me do this?" I tried to not laugh and be serious and with a stern voice I told her you have to do it. Well somehow she got up in it and said now what. I said you can get out now, I know you can drive it. Oh she was so mad at me and every time after that when she would see me she would thump me and say I still don't forgive you for making me get up in that FL. Oh what good times we had talking and joking with each other. I really enjoyed being Donnetta's friend. She truly is a special lady will be missed.
