“ I worked with him when we were both on the Bradford Gardens Homeowners Association board. He was, in one simple word, GREAT! Fantastic would be another word to describe him. I enjoyed working with him. He was retired then from his career as a supervisor at Tinker AFB (while I was still working at Tinker AFB) and we could relate to a lot of stuff! He provided some quite useful information to me about working there and it helped me immensely! A practical man who got things done. I do miss him.

Kermit was my first supervisor at TAFB. After I retired at 30 years , I often thought about him as the best one of all the supervisors I had, He was a always a gentleman and a great role model .Vicky Fry
